Elijah Potter

Bountiful, UT 84010

elijah.a.potter@gmail.com

Summary

I am currently pursuing a Bachelor's degree in Computer Science, developing a robust understanding of software development principles and data structures. My recent internship provided hands-on technical experience, complementing my problem-solving and analytical skills honed through various roles. I thrive in fast-paced environments, collaborating effectively to achieve group goals, and I am passionate about learning new technologies to enhance my skill set.

Employment History

Software Engineer Intern   *Calldrip*
